PROFESSIONAL SUMMARY

Self-taught front-end developer, highly motivated to learn and grow in the tech industry. I build modern web applications using technologies like Next.js, React, TypeScript, and Tailwind CSS, with a focus on creating responsive, accessible, and scalable user interfaces. I approach challenges with resilience and creativity, and I'm committed to clear communication, effective teamwork, and continuous improvement. Having lived in Portugal and Ireland, I've gained fluency in English and developed strong multicultural awareness, enhancing my ability to collaborate in diverse environments.

TECH PROJECTS

Authentication Project - <https://auth-project-firebase.vercel.app/> **Apr 2025**

Built an authentication system with Firebase supporting email/password login, Google auth, and password recovery. Used Tailwind for UI, Context API for state, and protected routes with React Router.

SkyWatch - <https://robertofrz.github.io/sky-watch/> **Mar 2025**

Created a weather app with real-time data from WeatherAPI and Geolocation API. Features include city search, °C/°F toggle, and favorite management. Used Zustand and React Query for efficient state and data handling.

codeHire - <https://code-hire-cvbuilder.vercel.app/> **Feb 2025**

Developed a responsive, accessible resume builder with real-time editing, best-practice tips, and PDF export. Implemented smooth navigation and data persistence via localStorage.
